PROFILE

Hi, I'm a Information Technology college student. I have always been fascinated by the world of digital technology, and I feel lucky to have found a career path that aligns with my passion. While I have gained a considerable amount of knowledge and experience, I am always eager to continue learning and improving. My career objective is to apply and expand my skills in software development and cybersecurity.

GOALS

As a final-year student, I am seeking an entry-level Backend Developer position. My goal for the next 2 years is to specialize in system architecture and design. Looking ahead to the next 5 years, I aim to leverage my experience and deepen my technical expertise to become a Middle Software Engineer.
